

Declaration of Packaging Compliance

Company: Baltic Block LTD

Authorized representative: Kristaps Briežkalns, Quality Engineer

Date: 08.04.2026

We hereby declare that the products and packaging listed below comply with the requirements specified in the provided PPWR compliance information.

Products and Packaging Covered

- Wood composite blocks (all sizes)
- Packaging consisting of PE film and PP/PET strapping

Compliance Statement

Based on available material and manufacturing information:

- The minimum adequate amount of material is used in the packaging system (EN 13428:2004).
- The total concentration of lead, cadmium, mercury and hexavalent chromium does not exceed 100 mg/kg (0.01%).
- Packaging components have been assessed to minimize the presence of dangerous substances in emissions.
- The packaging is recoverable by recycling in accordance with EN 13430:2004.
- The packaging is recoverable in the form of energy in accordance with EN 13431:2004.
- The packaging is not intended as reusable packaging under EN 13429:2004.
- The packaging is not organically recoverable under EN 13432:2004.
- No post-consumer recycled content percentage is specified for the packaging materials.

Material Identification

Wood composite block: Material identified as wood composite. Product marking is applied by inkjet identification (e.g. EPAL stamp).

Packaging: PE film and PP/PET strapping. No recycling symbol or digital marking is currently applied.

Declaration

This declaration is issued in good faith based on the information available at the date of issue and is intended to support customer PPWR and packaging compliance documentation requirements.

Signed:
